Mastering and Applying Insurance Business Analysis Best Practices by Attaining your MIBA Designation through a robust professional development program customized to the unique requirements and challenges of a rapidly changing insurance industry

The Challenge and The Opportunity

It makes all the difference in the world. Everything, every project, every success, and every failure points to the pivotal importance of consistently and skillfully applying business analysis disciplines. All the forecasts by all the research group were correct; the business analysis process to significantly improve business performance, and assure project success, is continuing to grow in both criticality and complexity. Masterfully applying business analysis best practices is essential throughout the project life cycle and to help push the business to ever higher and more demanding standards of excellence. Indeed, the rapid and accelerating advances in artificial intelligence further positions effective business analysis front and center in fulfilling the potential of emerging technologies.

“Everyone here has the same sense that right now is one of those moments when we are influencing the future” - Steve Jobs

The Master of Insurance Business Analysis (MIBA) designation program provides a powerful pathway to obtaining and applying contemporary business analysis knowledge, skills, methodologies, and techniques – all within the context of insurance. The MIBA designation does this through an intense curriculum consisting of: Deep and complete course content; Supported by extensive insurance business examples and actual case studies; reinforced through practice and application. In this manner, the MIBA program provides a uniquely relevant professional development experience – while delivering immediate benefits to sponsoring organizations. Essential new knowledge is gained. Core disciplines and methodologies are learned. Skills are honed. The latest tools and techniques are grasped. Mutually rewarding relationships are enhanced. Projects and initiatives are significantly improved. Business Performance accelerates.

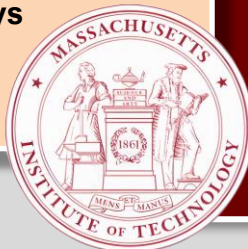

The MIBA Professional Development Experience is Particularly Robust, Content Rich, and Practical

Topical knowledge is presented in a highly engaging and deeply impactful manner. Course content comes alive through highly interactive and dynamic instruction supported by extensive use of insurance examples and case studies. “Work-Out” sessions that are conducted throughout the MIBA class provided candidates the opportunity to practice and apply newly learned methodologies and techniques. The entire MIBA program is designed to deliver a powerful and immediately actionable learning experience – a learning experience that is truly unique and immensely rewarding for participants and their sponsoring firms.

“Dig into every industry and you’ll find AI changing and indeed transforming the very nature of work. And such innovations are sparked by people who find fresh ways to look at the world”

- Daniela Rus, Director
MIT AI Laboratory

The MIBA is an intense skill amplifying program dedicated to rapidly elevating the knowledge and performance of all insurance professionals dedicated to creating outstanding business solutions. Advances in management thinking, business modeling and artificial intelligence has created an urgent need for a new business analysis skill set that embraces an ever widening and diverse group of insurance professionals including:

Project Managers and Business Analysts
Technology Executives and Professionals
Process Designers and Owners
Product Managers
Systems Designers and System Analysts
Operational Managers and Professionals
Financial Managers and Professionals
Marketing and Distribution Analysts

Application Developers and Designers
Business and IT Architects
Business Integrators and QA Staff
Digital, Web & UX Designers
Customer Experience Managers
Business Unit Heads
Subject Matter Experts
IT Staff, AI Engineers, Analytics

A Comprehensive Curriculum that Rapidly Imparts New Knowledge and the Skills to Act With Purpose On This Knowledge

The MIBA Designation class provides an impactful content rich presentation of all the critical concepts and leading-edge techniques associated with the business analysis process and better practices. Appreciating the amount of critical material presented, the teaching approach is quite rigorous and dynamic with a uniquely high level of attendee interaction. Instruction moves rapidly through underlying concepts, the foundational bodies of knowledge, and conveys how-to apply methodologies with supporting insurance examples and real-world insurance applications.

“There remains this childlike belief that, in the absence of skillful business analysis, technology will make everything better”

- Shoshana Zuboff

BA FUNDAMENTALS & ENTERPRISE ANALYSIS: System development frameworks; From waterfall to agile; project Accelerators, RUP, RAD, JAD; Data story boarding; Test drive development TDD; SCRUM and user experience UX modeling; business architecture frameworks; Business solution life cycle; The Elon Musk BA Algorithm; Solution scoping; Business case best practices; Risk analysis and mitigation; EA techniques & toolkit; Root cause analysis; Governance and decision right techniques; Stakeholder analysis; Nemawashi; Process design constructs; Value and CX journey mapping and analysis

The MIBA Designation Process: Five Steps Toward Achieving the Next Very Best Version of Yourself

APPLICATION AND REGISTRATION: Each candidate completes and submits a Master of Insurance Business Analysis Program registration form as contained in this brochure by calling the CIOP Institute (866.930.CIOP) - or by Email or eFax to svallen@ciopinstitute.com.

CLASS PREPARATIONS: 30 days prior to the MIBA Designation Class candidates are provided a preparation package containing thought leadership articles and other reference material, along with detailed virtual distance learning instructions, to begin conditioning new ways of thinking and imagining new possibilities. Textbooks are mailed to attendees two weeks prior to the program

CONFERENCE PARTICIPATION: Candidates are immersed in the two-and-a-half-day instructor led virtual distant learning MIBA Class that comprehensively imparts the bodies of knowledge, concepts, tools, and techniques for successfully initiating, shaping, and continuously improving outstanding business solutions and innovations

MIBA CAPSTONE PROJECT: Recognizing adults learn by doing, participants are provided a take-away assignment that helps them review, reinforce and begin applying their new knowledge to the immediate benefit of their sponsoring organizations. Candidates are provided six months to complete the MIBA Capstone which enables candidates to attend to the MIBA assignment while complementing their current daily job responsibilities.

CONFERMENT: Completion of the post conference Capstone Project results in awarding of the Master of Insurance Business Analysis (MIBA) as well as the Certified Artificial Intelligence Insurance Practitioner (CAIP) designations. The senior leadership of each candidate's sponsoring firm are advised of their candidate's professional development success and designation awards. The graduates receive their MIBA diplomas

“I fundamentally believe that if you are not learning new things, you stop doing great and useful things. Be passionate and bold. Never stop learning”

**- Satya Nadella
Microsoft CEO**

Schedule and Venue

The 2026 MIBA session will be conducted through the CIOP Institute's popular instructor led virtual learning platform. Participants will experience the world-renowned MIBA professional development program in a real time remote highly interactive learning environment. This dynamic remote learning approach is exactly the same as being on-site; High impact content delivered by insurance savvy instructors that enables participants to excel in their current position while preparing them for the higher responsibilities they aspire to. Each topic is characterized by high engagement, intense interaction, lively discussion and continuous participation. And is further enlivened through rigorous cases studies, dynamic role plays, insurance applications and demonstrations. The tone is challenging and the content robust – providing a highly informative, stimulating and fast paced learning experience. Resulting knowledge is both profound and pragmatic which participants can immediately apply to the benefit of their organizations as well as to their current and their future responsibilities.

The MIBA conference will be conducted Wednesday September 9th through Friday September 11th. Each daily session will begin at 9:am. The Wednesday and Thursday sessions will conclude at 5:pm with the Friday finishing at 2:30pm. There will be a 90-minute lunch break Wednesday and Thursday.
